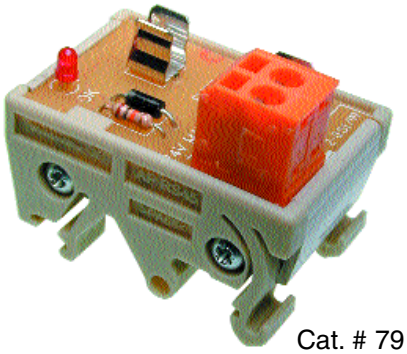
Fuse Terminal Accessories



Cat. # 7914890000

Cat. # 7914760001

Weidmuller offers two perfect accessories for our fuse terminals- a DIN rail mounted fuse tester and a spare fuse holder.

The compact fuse tester mounts on 35mm DIN rail and is powered by 24Vdc. Touch a 5x20mm, 1¼"x ¼" or 13/32"x1½" fuse to the test points-if the LED lights the fuse is good. Intended for use with basic fuse terminals without blown fuse indication. Simple, but very convenient.

The spare fuse holder is a 35mm DIN rail mounted plastic drawer. It can hold dozens of spare fuses or anything else you might want to keep in the control cabinet-extra marking tags, jumpers, lamps, etc. It can mount on vertical and horizontal rails.
