

W Series Fuse Terminal Block

- Quick installation as the products are delivered with open clamping yoke
- Small "W-Compact" module for space saving installation in the cabinet
- Protection against incorrect conductor entry
- Clippable and removable from the terminal rail in either direction
- Low Leakage current when fuse is blown

1011300001	Reg. \$18.25
WSI 6/LD 10-36VAC/DC LL	\$7.00
1012200001	Reg. \$18.25

WSI 6/LD 60-150VAC/DC LL	\$7.00

Multi-Functional Terminal Block

The WMF (Weidmuller Multi-Functional) line of terminal blocks provides a multi-functional solution for routing and distributing signals.

- Space-saving terminal that combines all the necessary
- Functionality into a single solution
- Integrated shield connection which can be used with feedthrough, fuse and disconnect functionality
- Three cross-connection channels and wide variety of labelling options

Analog Signal Conditioners

- **ACT20P BRIDGE**
Measuring bridge converter,
Input :Resistance measuring bridge,
Output: 0(4)-20 mA,0-10 V, Screw clamp connection.
- **ACT20P-BRIDGE-P**
Measuring bridge converter,
Input :Resistance measuring bridge,
Output: 0(4)-20 mA, 0-10 V, Push-IN connection.

ACT20P BRIDGE	\$408.00
2456820000	Reg. \$560.03
ACT20P-BRIDGE-P	\$420.00

TERMSERIES Relays

Modular relay modules from 6.4 mm width with extensive accessories, large selection of variants, and unlimited cross-connection possibilities. Relay modules from the TERMSERIES are now also available with a test button and offer a high level of practical benefit.

- 1 and 2 CO contacts, 1 NO contact
- Unique multi-voltage input from 24 to 230 V uc
- Input voltages from 5 V dc to 230 V uc with coloured marking: AC: red, DC: blue, UC: white
- Optional: Test button
- CIDR Hazardous area versions available

Compact Duplex AC Outlet

- Requires just 42mm of DIN-rail
- Includes power status LED
- Latching mounting foot makes installation and removal from DIN-rail easy
- CSA certified and cURus recognized

6720005430

**Duplex 15A, 120VAC Outlet with LED -
SCCR 10kA**

Reg. \$19.22
\$14.00

RS- Simplex

- TS 32 and TS 35 rail mountable
- Versions with or without circuit breaker
- Super small design

9915480001	Reg. \$35.55
RS-Simplex 5A, 120VAC Outlet with Circuit Breaker - SCCR 10kA	\$22.00

DIN-Rail Utility Box

Convenient Storage Options. This plastic drawer mounts on 35mm DIN-rail (horizontal or vertical) and is a convenient way to store spare fuses, extra marking tags, jumpers, lamps, etc. in a control cabinet.

7914760001

FUSE BOX (utility box)

Reg. \$9.14
\$6.00

Cable Cutters

Cutting without deforming copper or aluminium conductors

- KT 8: version up to 8mm \varnothing , 16mm² / 6 AWG

9002650000

KT 8

Reg. \$67.72

\$42.00

STRIPAX

In field operations, there is often little space in the toolbox. That's why multifunctional tools like our Stripax are useful. With this tool, cutting, stripping, and crimping are quick and easy.

- Optimised ergonomic design
- Stripping tools with automatic self-adjustment
- Adjustable to diverse insulation thicknesses
- Long service life

9005000000

STRIPAX

Reg. \$114.21

Featured Product

Customized Cabling Solutions

Plug-and-produce rather than complex assembly. Ready-for-connection cables for every requirement.

Whether it's signal cables, data cables, or network cables with RJ45 connectors, we have what you need for seamless connectivity in any application area. Our products are designed to match your requirements, providing a hassle-free experience.

Connect with us today and explore hassle-free connectivity solutions!

- Cables made of PUR, PVC and LSZH available
- Huge selection of colour alternatives
- Inclusive of markings for fast identification

- Available with M8, M12, M16, 7/8", M23 and RJ45 plug-in connectors
- 360° shielding and vibration resistance for fault-free operation
- M8 and M12 according to DIN EN 61076

- Compliance with protection classes IP65, IP66, IP67, IP68 and IP69
- Safe installation with the Screwty® torque screwdriver

 Continuous connection

 High-quality technologies

 Complete understanding of your application

 Flexible adaptation

 Great savings

 Exceptional services

MiBridget[®] Migration Solution

Modernize your PLC system quickly, easily, without errors

The MiBridget[®] product family from Klippon Engineering is a hardware solution for migrating control from a legacy control platform to a new platform. It is a “plug-and-play” solution – no programming or configuration is required. MiBridget consists of an adapter card, a cable with the new platform connector and an adapter card chassis.

The advantage of this configuration is that the existing field wiring remains as is and is not disturbed. Adapter modules are completely passive since there is no electronic circuitry so chance of failure is negligible.

Benefits of MiBridget[®] Migration Solution

Significantly reduces downtime

required for the control migration. In some cases, the planned outages were reduced from 14 days to 1 day.

Minimizes lost revenue

and costs directly associated with the migration.

Eliminates wiring errors

since the field wiring is not to be moved and re-terminated. Also, saves time in verifying wiring before re-starting the facility.
