

IT CAN SAVE YOUR LIFE.
IT'S THAT SIMPLE.

The next generation V-Watch[®] Personal Voltage Detector provides an extra level of safety by detecting and alerting you to the presence of high voltage electrical fields or energized electrical equipment.

V-WATCH

With a warning distance of 7 feet at 4kV, V-Watch Personal Voltage Detectors are ideal for **line crews, storm restoration workers and first responders** seeking an extra layer of protection against dangerous unseen high voltage sources.

VWS-20

The sp activates the V-Watch detector and performs a self test before each use.
