

## The revolutionary, newly designed Stellaluce, Formaluce and Quadraluce are changing the standard of emergency combos

Ever since the development and launch of the Pluraluce® Family in 2016, we knew that we wanted to take it a step further and design Pluraluce® battery unit as a combo. The Stellaluce, Formaluce and Quadraluce mark the exit, while providing a path of egress up to 54' wide. Engineered with the same optical design properties as the Pluraluce® LED light engine, each combo is shipped with 3 custom designed optical lenses. These lenses are interchangeable for ceiling symmetrical, wall wide and wall forward distributions. These combos do not have the standard heads and units above the fixture, instead they have a powerful 10W LED module at the bottom of the fixture.

Stellaluce, Formaluce and Quadraluce are ideal for various types of applications, including: retail, warehouses, schools, gyms, offices and more

Available in multiple mounting options: surface ceiling, wall and end mounting.
